

v1.0

15fifteen15 Ultimate Guide for 2023

Jeeh, Jeeh!

WE ARE!

This company is the most intelligent in the digital solutions market in Egypt. Its fast-growing rate relies on the theory of manual operation systems shaped by the skills of its team, the services it provides, and the goals it achieves for its clients.

THE GREEN MAGIC!

The white light company specializes in separating the good and bad aspects of life. Whether your business goals are profit-oriented or more managerial, they have the ability to place you in any position they desire by leveraging their innovative strategies.

THE GREEN CHROMA

We do not believe in Karma; we act as a chroma to take you wherever we want. fifteen15 is not an agency, but rather a neutral light that you can see wherever you are.

How do we keep up?

CONSTANT EVOLUTION!

What do we do?

UPDATE OUR SOLUTIONS

We prioritize modernizing our solutions in line with market needs and our commitment to innovation leadership.

EVERYTHING IS MANUAL

We care too much about simplifying everything to the point where everything can be formed from scratch.

ARTIFICIAL INTELLIGENCE

We place a great deal of importance on keeping up with the latest technology and using creative and innovative approaches.

Watch closely!

DIGITAL SOLUTIONS

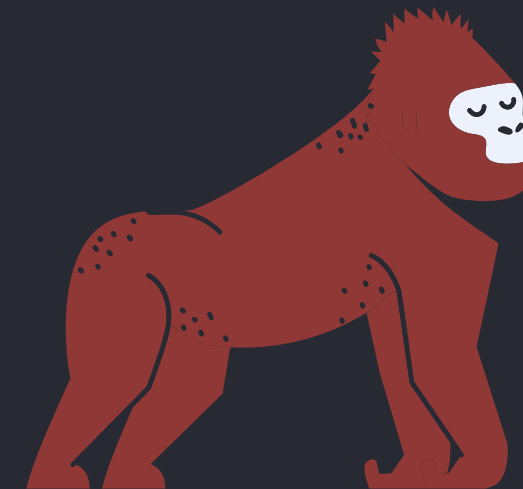

ART

We art for art, and art
for applying.

MEDIA

Talk like an adult, act
like a kid.

TECHNOLOGY

Close the door, and
open another.

Why?

All of our solutions are based on an hourly rate. You pay for the time we spend giving you our attention. This is because we do not work against your brand. If we work in a specific industry in your field of business, we will not cooperate with any other client in that same field during our partnership with you.

How?

For medium-sized startups looking to grow, we offer a set of service products at fixed prices. Our goal is to develop the digital market and partner with emerging businesses. Each product comes with a practical manual for integration with our other services.

WHAT'S OUR STRATEGY?

Studying the objectives of each client individually and providing the necessary consultations to improve the performance of his work in the field in which he works.

By implementing a plan for 15 months divided over the first three (3) months to achieve the initial results on which the agenda for the remaining 12 months is based.

WHAT'S OUR TACTIC?

We offer various solutions, which gives us the advantage of flexibility in planning and implementing short-term plans as quickly as possible because we have a dedicated research and development team for each product.

Our monitoring of competitors is the main motive to constantly upgrade our capabilities by periodically studying threats and opportunities without interruption.

MONTH 1

Audience Optimization

MONTH 2

Content Optimization

MONTH 3

Budget Optimization

ROTATIONAL COMMUNICATION

We are providing the work team with continuous communication experiences through multiple means and with a rotation and exchange of knowledge strategy that is subject to one work policy and allows our team to integrate across different countries of the world.

تحياتنا لكم جميعًا،
